# 100 YEARS OF GOLF

## ***CELEBRATING A CENTURY OF GOLF WITH YOU***

As we proudly introduce our 2026 catalog, we are honored to mark a milestone that few companies in our industry can claim—100 years in the golf business. Though Standard Golf's roots trace back to 1910, it was in 1926 that we firmly established our commitment to serving the game of golf with innovation, craftsmanship, and integrity. A century later, that same commitment continues to guide us as we deliver trusted tools and accessories to golf courses around the world.

This centennial year is more than a celebration of our history—it is a tribute to the golf course superintendents, distributors, and industry partners who have made this journey possible. With your support, Standard Golf has grown from a small operation in Cedar Falls, Iowa, to the world's leading manufacturer of golf course accessories. As we look to the future, we remain committed to being not only your supplier, but your partner—helping you succeed, grow, and deliver great experiences for golfers everywhere. Thank you for being part of our story, and here's to the next 100 years together.

*A lot can happen in 100 years! Back in 1926, Standard Golf was just getting started with our very first products—cups, flagsticks, and ferrules. That same year, Marilyn Monroe and the future Queen Elizabeth II were born, the first voices crossed the Atlantic by telephone, Harry Houdini took his final bow, and the Star-Spangled Banner officially became America's national anthem. Not a bad year to make an entrance!*

*Since then, we've gone from a small family shop to a 100% employee-owned company whose products can be found on golf courses all over the world. And while we're proud of how far we've come, we know we couldn't have done it alone. To all the distributors, greenskeepers, superintendents, and partners who have been part of this journey—thank you. Here's to celebrating the past 100 years, and to making the next century even better, together.*

**With gratitude,**

**The officers of Standard Golf: Matt Pauli, Ionela Verzescu, Roxanne March, Scott Hottle**

## SMART FIT™ 360 + ST2000 CUP: THE NEXT GENERATION OF PRECISION

For over 25 years, Standard Golf's Smart Fit™ Ferrule and ST2000 Cup have been the trusted combination on courses worldwide. In 2026, both take a bold step forward.

The all-new Smart Fit™ 360 Ferrule delivers total compatibility — locking seamlessly with the ST2000 while also fitting every major competitor's cup. Paired with the updated ST2000 Cup, now enhanced with a precision collar to hold flagsticks straighter and accept competitor ferrules, you get a system built for durability, simplicity, and universal performance.

Together, Smart Fit™ 360 Ferrule and the updated ST2000 Cup eliminate flagstick lean, simplify operations, and give superintendents confidence that their course looks its best every day.

### ONE SYSTEM. TOTAL COMPATIBILITY. BUILT FOR THE FUTURE OF THE GAME.

Upgrade to Smart Fit™ 360 and the new ST2000 Cup — the perfect pair for 2026 and beyond.

#### SMART-FIT™ 360 FERRULE

- ▶ Trusted Legacy Fit – Locks into place with any of our ST 2000 Cups (no leaning or twisting)
- ▶ No Sticking – Concave grooves and smaller top diameter decrease surface contact reducing any sticking to debris and allows for more downward movement of debris to get away from the ferrule and cup contact points
- ▶ Universal Compatibility – Fits all competitor's cups.

Smart-Fit™ 360 Ferrule	26515
------------------------	-------

#### ST2000 SMART-FIT™ CUPS

- ▶ Stronger Vertical Hold – New precision collar improves course presentation, keeps flagsticks standing straighter, reducing lean in aluminum and hybrid cups.
- ▶ Universal Ferrule Fit – Enhanced design accepts competitor ferrules, giving courses more flexibility without sacrificing performance.
- ▶ Seamless Pairing with Smart Fit™ 360 – Maintains the trusted lock with Standard Golf's updated ferrule for the most secure connection in the game.

# BUNKER RAKES COMPARISON

## THE CHIEF

Designed by a golf course superintendent to be used with the "Aussie Style" of bunker maintenance. This tine-less or "toothless" rake has two sides, a smooth side to help pack down the vertical sides of a bunker, and a side with ridges to rough up the bottom of the bunker without leaving large grooves in the sand.

- ▶ 20" (51 cm) rake head will come with one of 3 handle sizes, Green 54" (137 cm) Aluminum, 60" (152 cm) Green Gator Grip or 72" (183 cm) Green Gator Grip.
- ▶ Single tapping screw (included) is all you need for assembly.

## TOUR PRO™

The stronger, lighter material has tines to help move deep sanded bunker sand into place. Flip over and the ridges smooth the playing surface without leaving the sand compacted and flat. Less expensive and a wider coverage than many of its competitors.

- ▶ 20" (51 cm) and 25" (63 cm) heads ensure tracks are covered with minimum effort, while pioneering design generates tournament quality surfaces
- ▶ When durability is a must, the exclusive Gator Grip handle is your best option, available in both 60" (152 cm) and 72" (183 cm) lengths. Also available with 64" (162.5 cm) curved aluminum and 54" (137 cm) composite handles.
- ▶ A single self-tapping screw (included) is all you need for assembly.

## TOUR SMOOTH™ II

Performance of the original Tour Smooth Bunker Rake just got an upgrade. Improved rake assembly and the addition of the exclusive Gator Grip handle makes the Tour Smooth™ II a must for all courses.

- ▶ Smooths both fine and course sand into perfect playing conditions quickly and easily
- ▶ Pair the Tour Smooth™ II with the exclusive 60" (152 cm) Gator Grip handle for a level of performance unmatched by any of the competitors
- ▶ A single self-tapping screw (included) is all you need for assembly.

## DUO-RAKE™

One side furrows and the top side smooths. The entire rake floats!

- ▶ 15" (38 cm) high-impact plastic head.
- ▶ Now with new stronger, gusset-reinforced high-impact plastic head.
- ▶ Bolt and cone (included) is all you need for assembly.

## ECONOMY

Full size performance for smaller-sized budgets.

- ▶ 48" (122 cm) wooden or 54" (137 cm) ultralight, plastic-coated steel handles
- ▶ Tough, high-impact 15" (38 cm) molded head (and handle).

## CART RAKE

When weight is the issue, the Cart Rake is the lightest you'll find.

- ▶ Impact-resistant, 15" (38 cm) polyethylene molded head.
- ▶ Redesigned neck for added strength and durability.
- ▶ 48" (122 cm) wooden handle.
- ▶ Perfect for golfers to carry.
- ▶ Fits in most golf carts!

**HAMMERSTRIKE & MAGNUM PRO REPLACEMENT SHELLS** 

Hammerstrike and Magnum Pro cup shells are heat treated to reach 60 on the HRC scale. This environmentally friendly method creates a sharp cut with excellent edge retention and the ability to hold a very sharp, precise edge for a long time. Heat treating is not a coating, so no surface putting, flaking, or hydrogen embrittlement.

- ▶ Superior edge retention
- ▶ High hardness allows the material to hold a sharp edge for longer, ideal for precision cup cutting.
- ▶ Higher HRC allows for a smaller, more acute cutting angle, enabling more precise slicing of turf for all grass surfaces and green construction

# 400 DENIER VS. 200 DENIER FLAG FACTS:

## FACT #1

Sometimes less is more. 400 denier is relatively new to the industry and typically used on sailboats.

---

## FACT #2

The purpose of a golf flag is to show where the cup is and to help golfers judge wind speed. It takes a 7 to 10 mph wind to get a 400 denier flag waving. It takes a 3 to 5 mph wind to get a 200 denier flag waving.

Advantage: 200 denier. Plus, the heavier 400 denier flag wears out ferrules flagsticks and cups quicker.

---

## FACT #3

Golf flags are meant to fly. Sails are meant to propel sailboats. One has nothing to do with the other. So trust us when we tell you the only time we recommend 400 denier is usually when we're talking to sailors, not superintendents.

# IF IT STICKS TWISTS OR LEANS IT'S NOT A SMART-FIT

SMART FIT™ 360 + ST2000: THE NEXT GENERATION OF PRECISION

For over 25 years, Standard Golf's Smart Fit Ferrule and ST2000 Cup have been the trusted combination on courses worldwide. In 2026, both take a bold step forward.

The all-new Smart Fit™ 360 Ferrule delivers total compatibility — locking seamlessly with the ST2000 while also fitting every major competitor's cup. Paired with the updated ST2000 Cup, now enhanced with a precision collar to hold flagsticks straighter and accept competitor ferrules, you get a system built for durability, simplicity, and universal performance.

Together, Smart Fit™ 360 Ferrule and the updated ST2000 Cup eliminate flagstick lean, simplify operations, and give superintendents confidence that their course looks its best every day.

**ONE SYSTEM. TOTAL COMPATIBILITY. BUILT FOR THE FUTURE OF THE GAME.**  
Upgrade to Smart Fit 360™ and the new ST2000 Cup — the perfect pair for 2026 and beyond.
